DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1, 3-4, 6, 8, and 10 are rejected under 35 U.S.C. 102(e) as being anticipated by Zhou (US 6,353,700) as set forth in the previous Office Action dated 07/19/2004 and discussion follows.

Re claims 1, 3-4, 6, 8 and 10, Zhou discloses the claimed limitations in the previous Office Action and further teaches the processing of decoding first and second GOPs, exclusive

of I and P frames from any other GOP (fig. 4; see also col. 8, lines 33-44, wherein the last GOP is to be decoded for display first, this means each GOP is completely decompressed so the I, P, and B in each GOP is also decompressed before display).

Response to Arguments

3. Applicant's arguments filed 10/20/2004 have been fully considered but they are not persuasive.

The applicant argued that the claimed invention requires the I frame from the next group of pictures not be decoded before the display of the current group of picture, page 8 of the remarks.

The examiner respectfully disagrees with the applicant. It is noted that the claimed limitations do not exactly require "the I frame from the next group of pictures not be decoded before the display of the current group of picture". Therefore, the argument is not persuasive. It is submitted that Zhou discloses the last GOP in the MPEG video file is to be decompressed for display first, this means all I, P, B frames in one GOP before the last GOP are completely decompressed for display, the I, P, and B frames in one GOP are completely compressed before the I, P, and B frames in another GOP. In view of the discussion above, Zhou clearly anticipates the claimed invention.

Allowable Subject Matter

4. Claims 2, 5, 7, and 9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
